This diagram illustrates the assembly of a fuel system component, likely a fuel line or injector. The main assembly consists of a long, curved metal tube (43-801) with a flared end. A smaller, shorter curved tube (43-800) is shown separately, also with a flared end. A central vertical assembly includes a nut (43-806), a washer (43-804), a sleeve (43-805), another washer (43-807), and a threaded plug (43-807). A cross connector (43-803) is shown with a pin (94-6030) and a clip (94-960) for securing it. The diagram uses dashed lines to show the alignment and assembly sequence of the parts.
